## PUBLIC

### EVALUATION

- 90 - day for acceptably completed application
- Proposed work complies with all applicable laws, rules, and standards.
- CWRM shall: 1. Cooperate with persons having direct interest in stream
- 2. Be guided by following general considerations:
  - The quantity and quality of the stream water or the stream ecology shall not be adversely affected.
  - Where instream flow standards or interim instream flow standards have been established pursuant to chapter 13-169, no permit should be granted for any diversion works which diminishes the quantity or quality of stream water below the minimum established to support identified instream uses, as expressed in the standards.
  - The proposed diversion works shall not interfere substantially and materially with existing instream or non-instream uses or with diversion works previously permitted.

32 (e) • Clarity of best interest
